

D. M. Duggan, Mayoralty Candidate Gives Statement of Ideals To Be Achieved in Municipal Rule

Time Has Arrived for Careful and Sane Business Administration—City Will Be Made by Policy Adopted for the Near Future—Citizens Must Combine in Work-together Movement.

Organization of the sane, reasonable, thinking mass of citizens of Edmonton is the first step toward movement for the best interests of the city; the reduction of consumption of alcohol; the abolition of discriminatory taxation; utilities for the protection of all citizens; the citizens not as part of a political machine; the best use of city funds; the promotion of health and help development; more help from the government; better roads; traffic being granted the full presentation of all facts and figures; the formation of an advisory committee made up of representatives from the various community leagues etc.

"In some of the points which will be emphasized by D. M. Duggan during his mayoralty campaign:

"In the first place I am endeavoring by every means at my disposal and it is at the request of that organization and various other sections of the community that I am asking the support of the mayor," said Mr. Duggan in a statement to be read on Thursday evening.

"I accepted because I felt in the first place that there was a place where it requires most careful and sane business administration."

"The second point which must be adopted in municipal affairs in the coming year will either make or break our city. That is, the carrying and enacting upon a policy of what we mean about co-operative taxation, and the effect it will have upon the city's development."

Want Sane Forward Movement

"My third point which I accomplish the desired and the thoughts and ambitions of administration should not be lost sight of. We must be alert to the needs of civic problems and general civic welfare."

"In my judgment, the best interest of the city cannot be served by a policy of co-operation with the organized labour section. Our salvation rests in harmonizing the working together helpful movements."

"No great city can be built on a foundation of strikes and disputes between labor and management."

Discussed Political Machinery

"My fourth point which I propose to reduce the tax levy by reducing controllable expenditures to a point where the city can meet its obligations of civic problems and general civic welfare."

"In my judgment, the best interest of the city cannot be served by a policy of co-operation with the organized labour section. Our salvation rests in harmonizing the working together helpful movements."

"No great city can be built on a foundation of strikes and disputes between labor and management."

Thirdly, control the city's services, increase the revenue, and decrease the cost of the city and citizens. Instead of as part of a mayoralty campaign, we are going to make much disposition of lots that have become the property of

Help From Government

"We are making every effort to supplement our revenue by securing from the provincial government an amount of money to be used for the automobile license, fines under the liquor laws, fines under the motor vehicle laws, convictions, and other sources which the city has a right to legally franchise being granted," said Mr. Duggan. "There are many cases of all kinds of all facts and all negotiations for franchises shall be on such terms and conditions as will ensure adequate compensation to the franchisee and will fully protect the interests of the public. The city will bear its fair proportion of the burdens involved in the formation of an advisory board consisting of representatives of the business, professional, and other public-spirited organizations for the purpose of assisting our municipal problems and rendering assistance to the mayor and council."

TURTO, N. S., Nov. 18.—Strike of the United Mine Workers' convention here has had its vicissitudes and now there will be no strike among the miners of the coal fields of Nova Scotia.

Catarrh Of The Stomach Is Dangerous

Thousands Have It and Don't Know It. Physical symptoms are masked by indigestion—how to recognize and treat.

"Thousands of people suffer more or less from furred, coated tongue, bad breath, belching, flatulence, constipation, vomiting, rumbling in stomach, bitter eructations, and other symptoms which are all indications when in reality their trouble is not in the stomach but in the intestines," writes a New York physician.

"The trouble is not in the stomach because the mucous membrane lining of the stomach is perfectly healthy and the stomach covers the surface so that the digestive processes are carried on in the intestines. The condition soon subsides when the patient stops eating solid food. The blood is polluted and carries off the waste products of the dead tissue where it is apt to form and remain in the body, causing a chronic disease."

In case of the stomach a road and safe treatment is to take before a physician. If you have a glass of hot water set you can wash the mucus from the stomach with it. This will help to clean the blemished membranes and increase the effectiveness of the medicine.

The following remedies will be effective against catarrh of the stomach. Magnesia will serve as a laxative and will remove the mucus and excess hydrochloric acid that are present in the stomach.

Eaten raw, Eggs, natural digestion with the yolk removed, will help.

Histiated Magnesia is not a laxative but it is a good emetic and can be obtained from any local drug store. It is also good for the stomach with other forms of magnesia, milk, citrus fruits, etc. It is good to take in powder form or tablets, especially prepared for the purpose.

Prepared for the purpose.

Fuchs and Poel.

Examining the Germans, Fuchs were more disappointed with the progress of the war than Poel.

They believed that Germany was

Poel said that he had been given permanent possession of a large amount of land on the frontier.

This was not well received, and Poel said that the statement was "outrageous."

He knew that fruit and liquor came by express. Some of the express companies were sending unloading of fruit and booze, particularly liquor, to the express companies.

"The rates on liquor," said a voice.

Mr. Carvell expressed the opinion that it should be put up four times.

MICKAY MACKAY DENIES GIVING FRANK PATRICK ANY DOPE ON BIG FOUR

Writes Letter Stating That He Has Never Had Any Conversation With Coast League Magistrate as to Operations of Alberta Big Four Hockey League Last Season

The Frank Patrick has not received his alleged information about his "Big Four" Hockey League from Mickay Mackay, who was doing the writing, the writer says. Mackay's words do not bear out the story that he has been told that any information which would lead to the arrest of Frank Patrick was obtained from him by Mickay Mackay when he went to the coast last summer.

The hockey star is in question himself, however, and it is his opinion that that belief is quite incorrect. In a letter to Calvary Herald recently Mackay states that he has never had any conversation with Frank Patrick about the Big Four or given him any information concerning him last year.

This ruling comes from whatever information Frank Patrick may have must have been obtained elsewhere or in pure guesswork. Frank Patrick has not been interviewed by the writer—My attention has been drawn to the fact that Frank Patrick has been seen to have been in the city recently, but it is noted that probably I am connected in some way with certain charges made by the Coast League magistrate against the Hockey Association. I wish to add my hearty endorsement of Frank Patrick concerning the operations of the Big Four last season.

For various reasons Frank Patrick decided to play hockey on the coast this season, but it is his opinion that he will not play again in Alberta, and in any case I do not think it is giving me a fair advantage to say that he will not play again. I appreciate it if you will be good enough to publish this statement in your paper, which impresses me that many will have received. Sincerely yours,

MICKAY MACKAY

BROOKFIELDS WIN FROM PRIDES BY MARGIN OF 258

The surprise of the beginning season in the football league occurred last night when the Brookfields came back strong and thrashed the Prides, 258 to 10, at the stadium, exposing the three names. Nixon had his night, rolling three good scores, the last of which was a 50-yarder.
